Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-14 and 23-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Sheinman et al. US Patent No. 6,241,752.

Sheinman et al. disclose apparatus and methods of use for treating impotence by applying to the genitalia a monochromatic light in the wavelength range of 440-960 nm as presently claimed.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 15-22 30 and 31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sheinman et al. in view of Boutos US Patent No. 5,571,118.

Sheinman et al. does not teach a method for applying light to a female genital organs and their device is not configured to conform the entire female genitalia as

presently claimed. Boutos teaches an alternative apparatus and methods of use for stimulating both male and female genitalia. Hence, at the time of the applicant's invention, it would have been obvious to one skilled in the art to modify the Sheinman et al in view of Boutos so as to stimulate female genital organs as claimed.
